

2020 PRODUCT CATALOG

POWERED BY HELICOIL®

HeliCoil® is the engine behind Ravin Crossbows. This revolutionary technology has several industry-changing advantages that all work together to create the most accurate crossbow ever designed. HeliCoil® Technology coils cables away from both the top and bottom of the cams in helical grooves, keeping the cams perfectly balanced. This allows the cams to rotate an incredible 340 degrees, while both cams remain perfectly level when drawing and shooting the crossbow. This revolutionary design creates an incredibly compact crossbow packed full of innovative features that produce rifle-like downrange accuracy.

NEW SILENT COCKING

New fully-integrated Silent Cocking System, allowing you to cock silently every time. Available on the R29X, R29X Sniper and R29 Sniper models.

COIL CAMS

HeliCoil® cables coil away from both the top and bottom of the cams in helical grooves keeping the cams perfectly balanced, for increased speed and downrange accuracy.

LEVEL CAMS

HeliCoil® Technology keeps both cams perfectly level when drawing and shooting the crossbow. This allows the arrow to free-float above the rail, eliminating friction, giving you increased speed and downrange accuracy.

340° CAMS

HeliCoil® Technology allows the cams to rotate 340 degrees. This creates the most compact, efficient and accurate crossbow ever!

VERSA-DRAW™ COCKING SYSTEM

One of the revolutionary design advantages provided by HeliCoil® Technology is the Versa-Draw™ Cocking System. Working in conjunction with the Trac-Trigger™ Firing System this ultra-compact, fully-integrated cocking mechanism is built into the sleek stock design. Featuring a minimal 12 pound draw force, the Versa-Draw™ Cocking System is ambidextrous and has the ability to easily cock and un-cock your Ravin Crossbow. This unique HeliCoil® advantage provides an easy-to-use, fully-integrated cocking mechanism delivering unmatched downrange accuracy with every shot.

TRAC-TRIGGER™ FIRING SYSTEM

This patented built-in trigger mechanism slides forward on the rail and clasps directly to the precise center of the string every time the bow is drawn, allowing for straight-line nock travel. This unique HeliCoil® advantage creates a perfectly balanced draw for unmatched downrange accuracy with every shot.

FRICTIONLESS™ FLIGHT SYSTEM

HeliCoil® Technology allows the arrow and string to free-float above the rail, eliminating friction for consistent accuracy and increased string and cable life.

HELICOIL®

ADVANTAGES

NEW
FOR 2020

WITH **SILENT COCKING**

450 FPS

The new R29X, complete with our new fully-integrated Silent Cocking System, hits a new pinnacle of speed at 450 FPS. The length remains 29 inches and when fully-drawn, the R29X is 6 inches axle-axle and weighs a light 6.75 pounds. Including an ergonomic grip, this crossbow is easy to maneuver in tight spaces and gives hunters and shooters great control without sacrificing comfort. Available in Predator Dusk Camo, exclusive to Ravin Crossbows.

R26

400 FPS

The R26 is Ravin's most compact and lightweight crossbow to date. Weighing only 6.5 pounds, the R26 has an amazing axle-to-axle width of 5.75 inches when fully-drawn- making it the most compact crossbow on the market. Don't let the size fool you- the R26 shoots an incredible 400 FPS with 142-foot pounds of kinetic energy. The Ravin R26 features an ergonomic grip, making it a more tactical option for shooters and hunters. Available in Predator Dusk Camo, exclusive to Ravin Crossbows.
